

Thicker, Fuller Looking Hair... Again!

Laser Hair Therapy is a breakthrough technology that takes your body's own ability to grow hair into overdrive. This safe, noninvasive, effective treatment is free of side effects and is fully FDA compliant for safety. The regimen consists of two 30-minute treatments per week for one month and one 30-minute treatment per week each additional month. Clients may stop treatments when their personal hair growth goal is achieved. Overall program is generally six to twelve months.
