Come and experience style with a confident perspective. Steve Hightower Hair Artists' Studio is one of Atlanta's Top 10 salons and best hidden treasures. This full-service salon is conveniently located in Buckhead and free parking is available. The salon's staff of hair stylists, colorists, estheticians, massage therapists, polarity therapist, nail techs and makeup artists focus on excellent client service—a separate room provides privacy for clients receiving perms and color services, while others can enjoy the salon without the aroma from those services.

Award-winning, celebrity stylist Steve Hightower is nationally renowned as an expert in fine, thinning hair. Steve Hightower enhances his clients' appearance with French sculpt-cutting to bring out their best features and achieve the illusion of thicker, fuller hair. By providing products that prevent hair loss and promote growth, he has made the salon a destination for both women and men. Each client is taught how to achieve his or her best personal look with a current perspective. Book online or by phone.
